

A Sumptuous Habitation at Asset Precious

Asset Precious 2E is a luxurious establishment located right in the heart of Thrissur city. Asset interiors and customization team has efficaciously embellished the abode by incorporating modern contemporary features.

Living Room

The living room possesses a warm feeling with a simplistic design as desired by the customer, contributing an elegant and classy look. A sleek partition is provided with shelves to serve as a divider between the living room and the dining space. Furthermore, the TV unit has been beautifully designed with wooden and white solid colour combination. More than that, the same colour pattern is followed throughout, thus keeping a uniform design flow in every way.

Kitchen

A fully functional kitchen with matching cabinets adopting grey and walnut colour combination with a LED strip line gives an elegant and exquisite look to the kitchen and overhead shelves are provided to store all the necessary cutlery accessories.

Bedroom

Bedrooms are aesthetically designed as per the owner's requirement. Spotlights are strategically placed to give the room a zen vibe. Each bed is provided with bed storage. Again, the colour theme elected for the wardrobe makes the entire interior more appealing.

CLIENT SPEAKS

It's been quite a few years owning a flat at Thrissur – Kerala. Finally, this Precious. Initially, we were a would all go as we were not Asset, no matter what their top of things, and they were guide us as and when that they always kept us of construction at the site. I opportunity to thank a few through this journey. It was introduced us to the interior team when we asked for guidance on how to go forward with interiors. A big thanks to the entire interior team (Mr. Thambi, Mr. Liju and Mrs. Sukanya and the list goes on). I shouldn't miss out to thank three of them specially Ms. Pretty Paul, Mr. Santhosh and Mr. Amal from the interior team. Ms. Pretty Paul was there to help and support us all the time for the past few years and her responses and actions were always quick. With Amal, my only request to him was to keep things as simple as possible & not to go overboard and he understood what exactly my needs were and put together a simple design as you could see here. He also helped in selecting designs, furnitures, materials and colors and so on. Moreover he was always there to answer any queries even after his working hours or during his weekends and that's the dedication he has shown. Next is Santhosh, I do understand the efforts that he would have put in to pull this all together with his team, and hats off to him for the work he has done, his dedication, support and more over the friendly behavior. The interior of the flat looks perfect and we were pretty happy with the professional work that the team has done. A big thanks from the bottom of our hearts to the entire Asset team for doing such a wonderful job.

Mr. Rajiv and family, Proud owners of Asset Precious 2E

since we were planning to The cultural capital of eventually led us to Asset bit concerned as to how this in Kerala. But the team role is, they were always on always available to help or needed. The good part is updated about the progress would like to take this people who have helped us Mr. Santhosh who

Team behind design and execution: Mr. Thambi P Bose, Ms. Sukanya, and Mr. Sivaprasad.
