# CLIENT SPEAKS

**Mr. Anand Madhusudhanan and family,  
proud owners of Asset Grandios Sanford 8B&C, Kollam**

When we bought our flat, we had no idea about how we were going to do our interior. Then, the Asset project team introduced us their interior team. After few discussions with them about what we wanted, they showed us the 3D view of what it would look like. We were reluctant go with them at the beginning since we were not sure whether the final work would follow the 3D design. At the end, the work came out the way we wanted, especially when we were only dealing with messages and phone calls. We are happy with their work and all the finishing touches. A job well done.
