CLIENT SPEAKS

Mr. PM Dineshan and Family, proud owners of Asset Senate 7A

I have been residing in Dubai for 30 yrs. I was thinking of owning an apartment in my native place Kannur. I bought two flats from a local builder, both flats had issues. That is why I wanted to buy a flat from a reputed builder with premium amenities. I own a flat in the Asset Senate. In the initial stage itself I contracted with Asset Interiors for all of my interior works. Asset team was always available to answer our questions and address our concerns. I am happy with the quality of the work, choice of colours and quality of the materials. The service of all of the staff was appreciated. Many thanks to the wonderful team of Asset Interiors for helping us make our dream home happen.
