CLIENT SPEAKS

Mr. Jayakumar and family, Proud owners of Asset Legacy 13F

Our relationship with Asset Homes goes way back to 2016, as we were the joint venture partner of Asset Legacy. So, when it came to interior work of our own flat, we decided to entrust Asset Interior itself with it. We didn't really have a plan or vision on how to go ahead with the interiors. We just asked clean and minimal, but classy interior and we just decided to trust their team. They completed the project with utmost responsibility. The flat was delivered on time as well. Even the minute details were planned very meticulously. The kitchen, wardrobes, curtains, furniture, bookshelves everything was handpicked with attention to detail and quality. Initially the door of the pooja room had some quality imperfections and they replaced the door immediately before even giving us an opportunity to complain. The highlight of our flat is our library which was initially planned as a bedroom and later got converted to library. That space was beautifully done, all our suggestions were included and turned out even more beautiful and cozy than we imagined.

We are extremely thankful to Arun, Manoj and all staff who were involved in this project for their excellent service and contribution. Timely intervention of Nishanth was the sole reason for the prompt delivery of the project. Our special thanks to Nishanth from the bottom of our heart.
