

A Victorian Styled Home at Asset Anchorage

The interiors of apartment 3B at Asset Anchorage are reminiscent of the Victorian era. Asset Interiors/- Customisation team has used elements like ornate heavy carved furniture, luxurious drapes, gold and deep brown hues in walls to give this home a characteristic of opulence and luxury.

Entrance Foyer and Living Room

Near the entrance of the apartment, a storage space and sitting area has been tucked in for home owners and guests comfort before entering or leaving the house. The main living room has draped rich raw silk curtains in deep hues. A customized TV unit has been installed in the living room by our team.

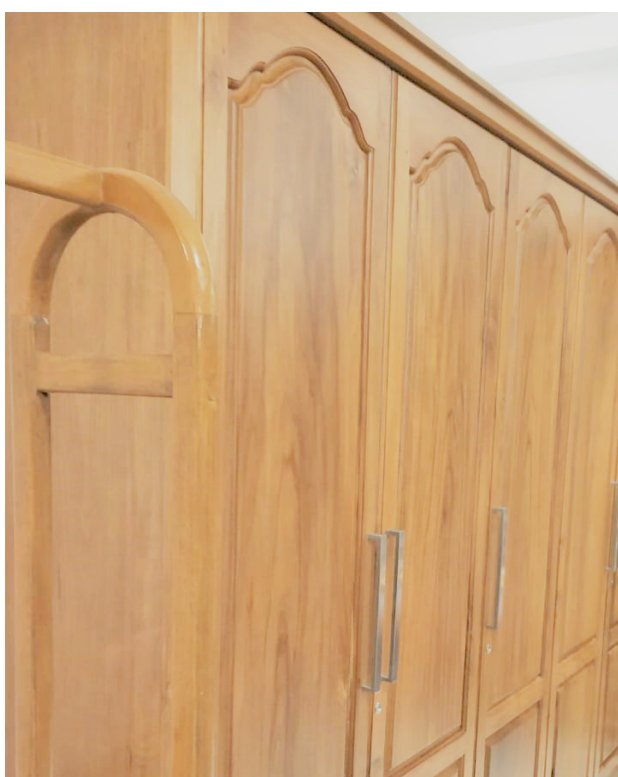

Dining area and Kitchen

The dining area has a ornately designed, huge sideboard with carvings and mirrors. Victorian dining rooms used to be identified by their huge sideboards and the same concept has been utilised while designing this room.

The home is equipped with a fully functional kitchen. A in built microwave and oven has been installed along with white cabinets. The kitchen is kept minimal compared to the rest of the home.

Bedrooms

An extravagant gold patterned headboard wall is the key highlight of the bedroom. A long - wardrobe spanning across one complete side of the room is designed and installed by the Interiors team. A dressing table with a full-length mirror and cabinets with spotlights also forms part of the bedroom.

The owners of Anchorage 3B are currently residing outside of India. They send all their good wishes for the Asset Interiors Team.

The team behind Design & Execution: Mr Thambi P Bose, Mr Sandeep, Ms.Sukanya.
