

## An Innovative Home at Legrande 9B

This particular flat at Asset Legrande is designed with the use of several innovative elements. An innovative entrance foyer, use of lighting in the living room, panelling in the partitions, spacious wardrobes, eco-friendly storage in kitchen all form part of specially customised unique features for our home owners.

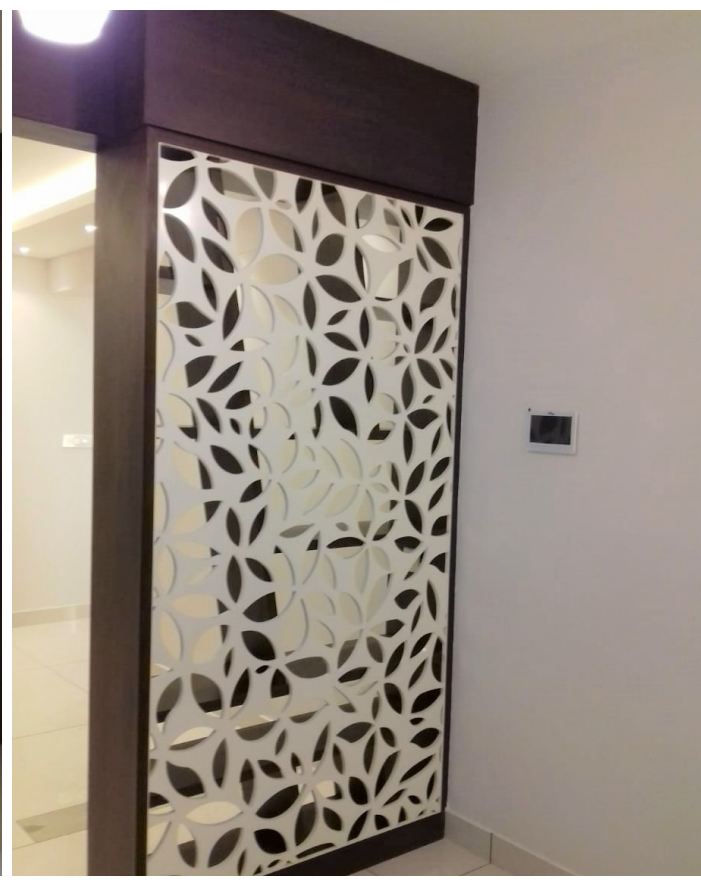

### Entrance Foyer & Balcony

The entrance door of the house opens to a backlit wall with a console table. The console table with ornamental legs imparts a sophisticated look to the area. In addition, a unique ceiling lamp adorns the entrance foyer. The living room has chandelier installed on the ceiling transforming the overall look of the room.

### Pooja Room and Partitions

Pooja Rooms and Partitions are done with the help of Intricate CNC designer panelling. The cut-out work is delicate and is used extensively on the one side of the shelf acting as a partition between the living and dining room, and on the pooja room sides.

### Kitchen

The kitchen has a neat white and grey theme, spotlights and strip lights are used extensively to provide ample light on the kitchen counter. Innovative use of wicker baskets is done near the sink area, to store fresh vegetables /supplies.

### Wardrobes and Closets

The fittings including wardrobes and closets deserve a special mention in the home. Asset Interiors Team has designed them keeping in mind the needs of the customer for storage space.

A customized pull out mirror has been creatively installed inside the sliding door wardrobe of the master bedroom.

### CLIENT SPEAKS

**Mr. Suresh Balakrishnan & Mrs. Lakshmi Suresh,**  
Proud owners of Asset 9B

A haven for our retired life was what we were looking for in an apartment and Asset Le Grande presented us with just that. The location, the layout was in tandem with what we were looking for. However, when it was time to do up the interiors though there were a number of contenders, we decided to go with the Asset Interiors since we were away and we would not be able to monitor the progress. Though we had some misgivings initially, once Mr. Thambi and his team took over we had no doubt about the decision. Their professionalism and commitment transformed our dream into reality and what unfolded was a cosy haven for us to spend, with our elderly parents, children and grandchildren. Our ideas were taken, and with a professional touch, the house was transformed to what we had in mind. We were demanding clients, but never once did they falter. Every milestone achieved on time, the entire team was available always to consult and to allay our fears. Staying in Bangalore, the interiors were done the way we wanted. All updates of the flat were shared periodically and after two years of occupancy, we can say that we got what we were promised.

On the whole, a wonderful experience and the journey with Asset team has been gratifying.
