

# An Idyllic Sanctuary at Asset Canvas

Asset Canvas 14C is a sprawling 3 BHK apartment, home to a family of three with the couple and their son. This home has been carefully crafted after understanding the expectations of the homeowners. The main theme has been to create an ideal haven for the family with modern elements, a perfect balance of functionality and aesthetics.

## Entrance foyer and Living Room

The entrance foyer has a stone cladding accent wall with spotlights and narrow shelves. Right in front is an innovatively design shoe rack which merges with the theme of the living room rather being an obtrusive element. Living room is well equipped with a TV unit and lit shelves. A wooden partition separates the living room from the dining.

## Dining and Balcony

Dining room has a custom made 6-seater dining table. The dining chairs have uniquely designed legs. Dining room opens to a passage leading to the master bedroom. Just outside the master bedroom's door, a tranquil portrait of Buddha using CnC cut-out panelling which lets in light through is creatively placed.

A vertical garden is installed in one part of the balcony wall keeping in view the owners love for nature.

## Kitchen

The kitchen is done up in elegant white and rose gold undertones. It is equipped with a cook top, hood, modular shelves and also a working area.

## Bedrooms

All three bedrooms of the home are uniquely designed, but the one which truly stands out for innovation is the owner's son room.

A suspended study table and shelves with wooden divider panel is installed along with the bed.

### CLIENT SPEAKS

#### Mr. Sarath Satyaneshan and Family

Me and Dad have always had conflicting views when it came down to 'An ideal living space'. Dad always wanted it to be in the heart of the city while I have preferred a place with peace and tranquillity, away from all the

buzzing car horns and ambulance sirens.

With Asset Canvas, we were treated to just that. It has all amenities nearby yet is completely unperturbed by the busy buzz of the city. We entrusted the interior furnishing to Asset Delight team headed by Mr. Thambi and team. They took in our inputs, provide valuable suggestions, improvised, threw in a little bit of creativity and end result was 'Magical'.

I would like to conclude by saying that Asset is a brand that you can blindly put your faith in. From construction to key handover, everything was handled professionally and with a focus on customer satisfaction.

Team behind design and execution: Mr. Thambi P Bose, Ms. Sukanya, and Mr. Sivaprasad.
