

The 4-BHK Duplex Apartment A Personalised Abode

The re-imagining and transformation of two individual flats as a single premium duplex apartment

For our customers at Chiraag 6D and 7D, their brief was simple; they wanted a spacious home. A family of five, including one teenage son and an elderly couple – (the customer's parents), they wanted a home which can accommodate the members and host guests comfortably on occasions.

The Asset-Homes Interiors/Customisation team sprang into action and swiftly presented them with the idea of combining two 2-BHK flats and turning it into a custom-made, plush, fully furnished 4-BHK duplex apartment.

In-house design of the staircase

Access was provided to the upper floor using an internal staircase. This staircase is completely an in-house design.

The toughened glass design part imparts a contemporary look; the wooden handrail is keeping in mind the durability and the granite tread for the ultimate premium look.

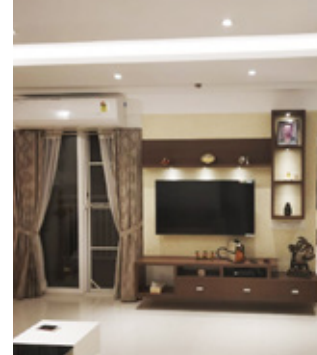

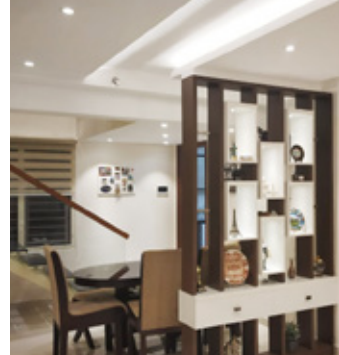

Space below the staircase is utilised creatively by placing a wash counter with lit-up pebble court and indoor plants.

Living and Dining Space

The colour scheme used is a palette of browns. The customer's preference for wood finish is brought to realization using wooden accents in most parts of the house.

For the upper living, one corner was turned into a bookshelf using mahogany wood, designed in the shape of a tree.

A musical Soirée

Our customers are proud parents to a budding musician, their son. An entire wall of the upper living area was turned into a grand piano-styled shelf.

This shelf is sure to be a conversation starter and a piece of the house that truly represents the residents.

Modern Kitchen

A modern kitchen was specially customised with state of the art features, complete with a cooking range with touch button, auto-manoeuvre chimney, and matching cabinets.

The modernity is accentuated with the inclusion of a contemporary foldable breakfast counter in one corner of the kitchen.

THE CLIENT SPEAKS

Our Team with the customers

When we came close to the completion of our new apartment, we remember the thoughts of sourcing an interior designer, which was daunting for us as we were looking for a one-stop solution for all our interior design needs.

We decided to go with Asset Interiors; and Mr. Thambi, the lead designer was very warm and always available by phone or e-mail to answer any questions we had.

Thanks to him and his team, we now have rooms, which are a pleasure to be in. We would recommend the services of Asset Interiors and Thambi to anybody thinking about decorating their home.

Sarita & Gangadharan
(Proud Owners of Chiraag 6D-7D)

The team behind Design & Execution: Mr Thambi P Bose, Mr Sandeep, Ms Sukanya and Ms Amallya.
