

A Mariner's Anchor at Kochi

Our customer at Legrande 12 E is a family of three.

As a merchant navy officer who stays at sea for long durations, his Kochi home is the anchor, which provides him with the opportunity to pause, relax and reconnect with his family.

Our Asset Homes Interiors/Customisation Team has strived to personalise this flat for the client, to bring his insights, customise the unit in accordance with the family's requirements, preferences and comforts. The result is a contemporary home fitting for a globetrotter.

Entrance Foyer & Balcony

The entrance has a backlit anchor aptly depicting what this flat means to the owners.

The balcony has been designed intricately with panelling and profile lighting; it starts from one sidewall and continues all the way up to the balcony's ceiling.

The other sidewall is covered with cladding stones in grey keeping the colour scheme cohesive.

Living and Dining Space

The living and dining space has been designed to exude a sense of modernity.

Neat, contemporary geometric shapes have been used for the separation between living and dining, the TV unit, dining area and the breakfast counter.

The front of the breakfast counter is an intricate CNC cut-out panel with backlight.

The upholstery for the living room furniture is premium faux leather selected specifically keeping in mind the client's preferences.

Master Bedroom

The theme of contemporary design is continued in the master bedroom.

A 3-D effect has been created in the headboard wall using premium textured laminates.

The book-shelf is again creatively designed using geometric shapes.

Kid's Bedroom

No girl ever said there is too much pink.

Our customers are doting parents to a daughter, and for her bedroom, pink is used as the predominant colour, pink walls, part of the ceiling is kept pink and with strip blue lighting an illusion of sky is achieved.

A bookshelf formed in the shaped of a tree is installed as an accent feature.

THE CLIENT SPEAKS

Harish & Mary (Proud Owners of Legrande 12E)

When we thought about designing our home the first name that popped into our minds unanimously was Asset Homes. Working with the team was an absolute pleasure for us. They spent the time to get to know us and understand our personalities and needs. We were particular that our home while aesthetic and cosy should also have state-of-the-art elements. Asset homes combined our ideas with their expertise and experience, to come up with a beautifully designed home. They went above and beyond to give us our perfect dream.

The team behind Design & Execution: Mr Thambi P Bose, Mr Sivaprasad, Ms Sukanya and Ms Amallya.
