

A warm and cosy home at Asset Grandstand

The owner of Grandstand 4E though resides outside India, but he harboured a wish of having a home in his hometown Kannur. This apartment thus holds a special place for him.

Keeping in mind the sentimental value of the home for the client, Asset Interiors /customisation team has tried to create a cosy and comfortable space through design, ensuring that whenever the owner visits Kerala, he can immerse himself in memories while enjoying all the modern day luxuries at the same time.

Entrance Foyer and Living Room

The colour scheme of the home has been kept neutral. All the walls and soft furnishings are provided in muted tones of desert sand; that is very soothing to eyes. The spotlights in the false ceiling and the wall fittings are also carefully placed so that they are not overpowering.

Bedroom and TV Unit

The TV unit and the bedroom fixtures have warm colours. Niche and the false ceiling apart from its utility has also served as an accent feature. Again spotlights are strategically placed to give the home a Zen Vibe.

Kitchen and Puja Room

A fully functional kitchen with matching cabinets, chimney and a cook top is provided.

The puja room design by Interiors team is done similar to the traditional Kerala temples. This space stands out in the home because of its sacred and meditative aura.

THE CLIENT SPEAKS

It was in my thoughts for quite a few years, to have an apartment here in Kannur, my hometown. I was excited and had my own dreams about purchasing a home. Not just because it was my first time purchasing an apartment in Kerala, but because Kannur has always been close to my heart as I had spent my childhood vacation days there, at my Grandmother's home at Kannapuram which is 7 Km away from Asset Grandstand. Many sentiments are associated with this purchase. Also, it is a home, a purchase I made so that I can spend my holidays in Kannur, though I have a few apartments in Mumbai. Hence I wanted to make sure the apartment interiors look cohesive and elegant as well.

After the apartment was handed over, I was in search of an interior designer who can make this "a home sweet home". After searching and shortlisting, I decided to go with Asset Interiors, getting impressed with their interior works at similar apartments in Kannur.

Though I reside outside India, what we experienced with Mr. Thambi and his team at Asset Interiors was their ability to guide us through the design process and educate me about current trends and options that are available in the market today. The quality of work and materials that were used, were exceptional. We had our ideas and dreams of course, but they quickly understood our preferences and personal tastes. Fantastic work Team Asset Interiors! Professional and patient. They were happy to revise their plans multiple times until we were confident. Our house is now a space that perfectly reflects our

unique needs and personalities. Overall, we would say that we've been fortunate enough to get our apartment interiors done by the Asset Interiors Team.

Thambi and team were always just a call away for any assistance. We are sure to get our interiors done through them itself, if ever we make any future purchases with Asset Homes.
